DIV. OF OIL GAS AND MINING

Dear Mr. Hamilton,

Your Plan of Operations for the Black Rock Quarry located in T. 23 S., R. 10 W., Section 33 has been approved, contingent upon the following stipulations:

1. You must consult with the Utah Division on Environmental Quality and gain all required air quality permits and comply with all required monitoring.
2. You must either divert all haul roads to create a hundred foot space between the DC power poles and the road, or you must build protective berms between the power poles and the road.
3. You must provide data on the sales and use of the material you are mining so that the BLM can determine if an escrow account is justified.

Also, you need to be aware that you are exceedingly close to five acres of disturbance on the site. You should, as soon as possible, submit to the Utah Division of Oil Gas and Mining, a Notice of Intention to Commence Large Mining Operations (MR-LMO). Please submit a copy of the MR-LMO to this office, so it can be processed as an amendment to this Plan.

If you have any questions, please feel free to contact Jerry Mansfield at (435) 743-3125.

Sincerely,

Sherry K. Hirst  
Field Office Manager
